Guest Speakers This Month

The NY/NJ Baykeeper
is the citizen steward for
the Hudson-Raritan Estuary

**PRESERVE
PROTECT
RESTORE**

The Baykeeper's mission is to protect, preserve, and restore the ecological integrity and productivity of the Hudson-Raritan Estuary - the most urban estuary on the planet. Since 1989, we have served as citizen advocate for the Estuary's bays, streams, and shores. Baykeeper stops polluters, champions public access, influences land use decisions, and restores habitat - benefiting the natural and human communities of our watershed.

Communication:

The chapter needs to communicate with you to insure you are getting full membership benefit and can be advised quickly on items that may threaten this sport and activities being sponsored. Thus it will be helpful if you would provide an e-mail address. The JSTU will not release your address outside of the chapter. Send an e-mail to: lloyd@jstu.org to update your listing. Also send any other changes to your surface mailing address.

Duane Lloyd / 08
